The New-York team arrived home from its Western trip and played the frisky Orphans from Chicago at the Polo Grounds yesterday. The weather was not ideal for the sport, and this may account mewhat for the poor attendance. Although the New-York team met some of the poorest teams in the West on its last trip, it did not help its stand-

ing any. Rusie was batted hard in yesterday's game, and the strong, right arm of the good-natured giant from ladiana seemed to have lost its cunning for the time being. No less than twelve hits were made off Rusie, while Callahan, the Chicago pitcher, was only touched up for five hits by the ew-York players. Callahan received poor support from his brother Orphans, and this lost the game

Both teams scored a run in the first inning, and

Chicago scored again in the third. In the next inning New-York scored two runs through Thornton's muff of Davis's fly and Warmer being struck by a pitched ball. The Chicago team got in another run in the eighth inning which tied the score. In the ninth New-York scored again, but Chicago was unable to do like-

BROOKLYN BEATEN BY CINCINNATI. TROLLEY-DODGERS FIELD POORLY AND FAIL TO HIT BREITENSTEIN EPPECTIVELY.

The Brooklyn club yesterday began its final series at home with the Cincinnati club. Although the trolley-dodgers had plenty of vim and life in the trolley-dodgers had plenty of vim and life in their preliminary practice work they did not play brilliantly when the real test came. They were unable to hit Breitenstein with any degree of effect, and their field work was extremely poor at times. The Brooklyn club has suffered defeat by narrow margins probably more times this season than any other club in the League, but there is no treason why the team should not play better and win oftener. ## THE DAY'S OPERATIONS IN STOCKS.

Dealings in stocks yesterday were on a some what reduced scale, and the course of prices was more or less irregular, but at the same time there was nothing to indicate that the advance in securities had reached its limit. The halt in the upward movement was due apparently to the taking of profits by professional speculators and to a desire to await the signing of the protocol by the French Ambassador as the representative of Spain. There was no "bear talk" and there would have been an abundance of it had the Wall Street community had any idea that stocks were on the eve of a downward turn. In some quarters it was said that a reaction in the market was due, but the general idea was that little if any more than a brief pause in the rise was being experienced.

The belief in financial circles is that existing conditions warrant a considerably higher range Totals ... 30 4 11 27 12 4 Totals .... 33 8 7 27 20 4 of prices, and that these conditions must prevail against manipulation and other artificial factors. There is not an unfavorable element in the situation. The main dependence for the time being is on the crops. Taking the Government report, which is on all hands pronounced conservative, the wheat crop is perhaps the largest in the history of the country, and the corn crop is almost a normal one. The grain-carrying roads which collect their own crop information, and the crop experts, insist that the Government report underestimates both wheat and corn, especially corn. As has been previously stated, there is much old corn in the country, and it makes little difference if the yield this year is not a bumper crop. Corn is now going to Europe in exports of this cereal the coming year may be the heaviest on record. The exports of wheat will be a demand abroad for all the new wheat the country has to spare. The farmers may hold back their wheat for a time to secure a rapidly wheat will move. It is expected that cotton will be marketed with promptness.

There was more realizing perhaps in the Granger shares than in other stocks, but the offerings of these shares were readily absorbed and there were no important concessions in price. closed a cent higher than last night, and was at one time a little better than the close. The deferred futures did not do nearly so well. De-cember, at the close, up only 146% cent. May ber opened at 661-26664, cents, sold between 100 66% and 6714 cents, and closed at 6714/6674 cents. December was 212 cents discount under September, compared with 2 cents discount Thursday. The cash demand was the bull motive, with premiums here about as they have been 1079 little let up in the shipping urgency, but there 740,000 bushels last year at primary points: Toledo had only SS cars of wheat, Chicago 131 cars. Kansas City 218 cars, and St. Louis only 31,000 bushels. Argentina shipped nothing. The seaboard claimed forty loads for export. Estimates on the visible were for a decrease Monwest early, but anxiety on that score disappeared when warmer weather was predicted for Saturday. Liverpool was &d. to 11sd. higher; scaboard clearances were 335,000 bushels. Ex-150% port sales from here were 100,000 bushels. The Northwest predicted a much larger movement of spring wheat within a week. Crop news from the Continent was bearish. The feature in the with more or less reselling for December and 1,000,000 bushels or over. It made buyers of

tember price sold up to the December. September opened at 321/2 cents, sold between 32% to 32½ and 32½ cents and closed at 32%@32¾ cents. December closed at 32½ cents. Charters were reported for only 175,000 bushels, but there were a good many boats taken not reportgated 80 loads. Argentine shipments were large, 904,000 bushels, compared with 80,000 bushels last year. Cables were irregular. Receipts were 381 cars, with 530 estimated for to-morrow; sea-board clearances were 512,000 bushels. Counselman was the best buyer, and he was the chief

seller of cash to the seaboard. Oats were firm, up 1/8 to 1/4 cent. September opened at 2014, cents, sold between 2014 and 20% cents, and closed at 20% @20% cents. May closed at 28 cents. There was a good cash demand, with sales from here to the seaboard about 300,000 bushels. Receipts were 345 cars. with 350 estimated for Saturday. Seaboard clearances were 147,000 bushels. The specula-

tive trade was slow. Provisions were firm early, on small hog re ceipts. They yielded finally, because of the ru-
